—BOARD OF EDUCATION.

Something of Interest Concerning Our Public Schools.

The board of education held a special meeting last evening, at which all the members were present.

Application having been made to Supt. Burton, by certain parents to permit their children, who have not completed the prescribed grammar course, to enter the high school and pursue a part of the studies of that grade preparatory to entering college, the matter was fully considered by the board and a resolution adopted requiring all pupils to pass the necessary examination in the lower grades before being admitted to the high school.

It was, however, voted to permit any pupil in the first grammar department to study and recite with any of the high school classes, any of the studies taught in the latter department, in addition to carrying the work of the department in which such pupil belongs.

The committee on text books were authorized to select and adopt a text book in book-keeping for the use of the high school.

A resolution was adopted authorizing the principal of each school building to disburse any department in their building in which the temperature is uncomfortable, and to report such disbursements and the temperature of the room from which the school was dismissed, to the clerk of the board.

—Satisfactory Evidence.

J. W. Graham, Wholesale Druggist, of Austin, Texas, writes:—I have been handling Dr. Wm. Hall's BALSAM FOR LUNGS, since the past year, and have found it one of the most reliable medicines I have ever used in my house for Coughs, Colds, and even Consumption, always giving entire satisfaction. Please send me another gross.

Some wonderful cases of pneumonia have been cured by Dr. Wm. Hall's Balsam for treatment. Sold by Stearns & Baker.
